*AmeriHealth Caritas Ohio reimbursement policies and their resulting edits are based on guidelines from established industry sources, such as the Centers for Medicare and Medicaid Services (CMS), the American Medical Association (AMA), state and federal regulatory agencies, and medical specialty professional societies. Reimbursement policies are intended as a general reference and do not constitute a contract or other guarantee of payment. AmeriHealth Caritas Ohio may use reasonable discretion in interpreting and applying its policies to services provided in a particular case and may modify its policies at any time.*

*In making claim payment determinations, the health plan also uses coding terminology and methodologies based on accepted industry standards, including Current Procedural Terminology (CPT); the Healthcare Common Procedure Coding System (HCPCS); and the International Classification of Diseases, 10th Revision, Clinical Modification (ICD-10-CM), and other relevant sources. Other factors that may affect payment include medical record documentation, legislative or regulatory mandates, a provider's contract, a member's eligibility in receiving covered services, submission of clean claims, and other health plan policies, and other relevant factors. These factors may supplement, modify, or in some cases supersede reimbursement policies.*

*This reimbursement policy applies to all health care services billed on a CMS-1500 form or its electronic equivalent, or when billed on a UB-04 form or its electronic equivalent.*

## Policy Overview

The Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) program, mandated by the Centers for Medicare and Medicaid Services (CMS) for children younger than 21 (twenty-one) years who are enrolled in Medicaid, includes preventive and comprehensive health care services, and is designed to guarantee access to age-appropriate screening, preventive care, and treatment for children and adolescents.

## Reimbursement Guidelines

Healthchek" is Ohio's early and periodic screening, diagnostic, and treatment (EPSDT) benefit for all Medicaid recipients younger than twenty-one years of age. It is made up of the following comprehensive services that are intended to find and prevent health issues:

- Screening services

- Health and developmental history
- Physical and mental health assessment
- Immunization assessments
- Laboratory (including lead) tests
- Nutritional status
- Health education
- A comprehensive unclothed physical exam, when appropriate
- Vision services
- Dental services
- Hearing services
- Other necessary health care services (if coverable under the Federal Medicaid program and are found to be medically necessary to treat, correct, or reduce illnesses and conditions discovered)
- Diagnostic services, if identified by a screening examination
- Treatment for any identified physical and mental illnesses or conditions

Healthchek covers ten check-ups in the first two years of life and annual check-ups thereafter.

The appropriate preventive medicine CPT codes, diagnosis codes, EPSDT referral indicators (if indicated following the preventive visit) and modifiers (if indicated) must be included on the claim. Claims missing this information will be denied.
